

# Measuring your Table

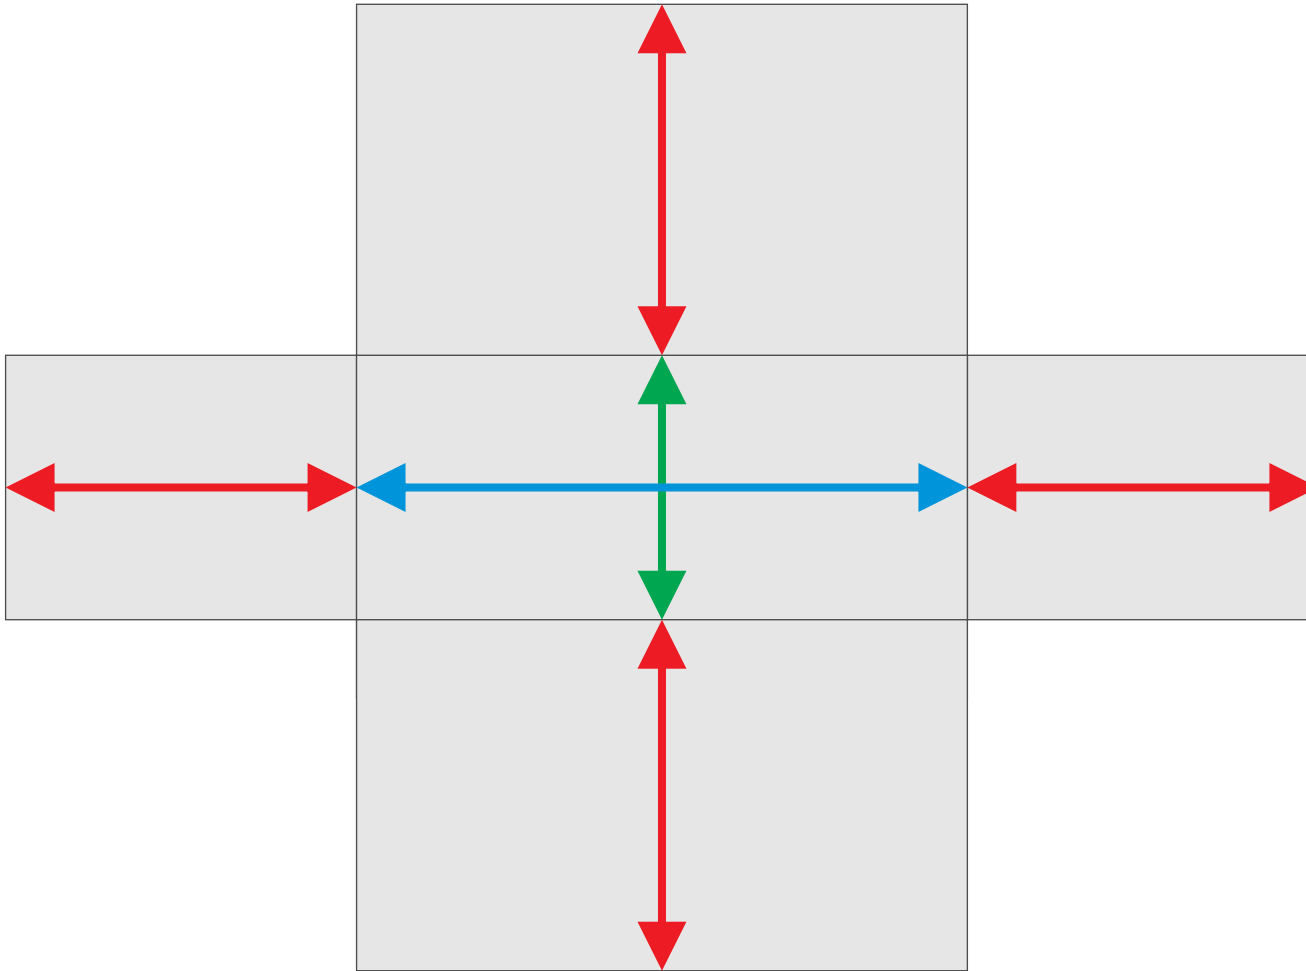

**NOTE:** The most accurate measurements will come from corner to corner if your table has straight corners. If your table has rounded corners measure across the middle of the table.

**Width:** \_\_\_\_\_ inches    **Depth:** \_\_\_\_\_ inches    **Height:** \_\_\_\_\_ inches

# Configuring your file size

Width: \_\_\_\_\_ inches    Depth: \_\_\_\_\_ inches    Height: \_\_\_\_\_ inches

**Height + Width + Height** = \_\_\_\_\_ inches + **2"** = \_\_\_\_\_ inches **Final width size**

**Height + Depth + Height** = \_\_\_\_\_ inches + **2"** = \_\_\_\_\_ inches **Final height size**
